## **Level 2 is coming soon and we can't wait!**

Hi there

We have been back at work for just over two weeks now and I must confess it was definitely great to see a few more faces than just my immediate bubble! Another highlight at level 3 has been takeaway coffee again, even with a coffee machine at home a well made barista made coffee is always a treat, plus its great to support other local businesses at this time as we get our economy up and moving once again.

Operating under level 3 guidelines has been something to get used to, but all our Parts Connection branches have embraced returning to work and put in place excellent safety systems to ensure our staff stay safe while at work and to also keep our customers safe with contact less courier and safe pick up/collection zones at each of our branches. When we reach level 2 later this week you can be confident that these safe systems will continue and each branch will have procedures in place to protect you should you be visiting our sites. Thank you once again for working with us during this time.

Life in Lock down has been interesting to say the least !! It has had us binge watching TV, walking the neighbourhood, baking, navigating the supermarket and listening to Covid-19 updates while all staying in our bubbles. See below for our latest newsletter competition..

Congratulations to our latest Gold Rush Winner who claimed a \$5,000 nugget this week! This month is jackpot month and we have \$35,000 worth of Capricorn preferred supplier bonus points to give away. Keep checking your cards to see if you're a winner.

We hope you have a good month as we transition to level 2 and we look forward to hearing from you and maybe even seeing some of you again very soon!

**Stay Safe**

## More funnies to enjoy!

We hope you enjoy these memes!  
Some of the best floating around at  
the moment.

My husband purchased a world map

My husband purchased a world map and gave me a dart and said "Throw this and wherever it lands I'm taking you on a holiday when this pandemic is over." Turns out we're spending two weeks behind the fridge.

Okay if we're going to have one-way grocery aisles then I'm going to need a passing lane.
